DPL Labs Releases Performance Results for Next Generation HDMI™ Cables; Long Six Meter Model Receives High Marks *Select Next Generation HDMI™ Cables Shown to be "Over-Achievers"*

ORMOND BEACH, FL – OCTOBER 06, 2008 – DPL Laboratories, Inc. (DPL Labs), the industry's leading technical laboratory conducting performance testing of high bandwidth digital signaling solutions, today released detailed performance results for HDMI™ cable products from Next Generation Home Products (NGHP). DPL Labs technicians noted that while all of the models supplied from NGHP received performance rankings that were well above average, one model, a six meter cable in their Xtreme series, earned an exceptional "3" ranking on DPL's "1" to "5" scale from "good" to "best."

Next Generation Home Products is a Port Richey, FL based provider of a wide range of solutions for industry installers and dealers including remote extenders, cables, switchers, splitters, and more. As one of the first companies to join DPL Labs Digital Performance Level HD Performance Testing & Certification Program, Next Generation believes that providing dealers and consumers with true performance ratings to assist them in selecting the right product for their application makes good business sense. Learn more about Next Generation Home Products at www.nghp.net.

DPL Labs tested several models from Next Generation ranging in length from 1 meter to 6 meters. DPL technicians conducted a rigorous multi-element testing regime in both Class B and Class C testing classifications. All Next Generation HDMI™ cables earned scores with either a "3" or a "4" rating...in both testing classifications...representing excellent overall performance.

Continued...

And the 6 meter model in particular, at almost 20 feet in length, earned a performance rating of “3” which is especially notable for a relatively long HDMI™ cable.

For a complete listing of model-by-model results on all tested Next Generation products, see Class B results at www.dplrating.org/DPLWebsite10/Next_Generation_Class_B.html, and Class C results at www.dplrating.org/DPLWebsite10/Next_Gen_Scores_Class_C.html. ###

ABOUT DPL LABORATORIES, INC.

DPL Laboratories, Inc. of Ormond Beach, FL administers the Digital Performance Level HD Performance Testing & Certification Program (DPL Program) in which their independent laboratory tests advanced digital products, such as HDMI™ cables, against an objective performance standard and determines an accurate ranking based on actual data-backed results. All products are ranked on a simple numeric scale that ranges from “1” to “5” representing “good” to “best” performance. Consumers can then use this ranking to assist them in purchasing the correct product for their application. Look for the DPL performance certification seal as your assurance of quality product performance.

Brands participating in the DPL Program include Acoustic Research, Next Generation, Honeywell, Ethereal, Direct Connect, SR Components, Inc., Signature Wire Corp., Phoenix Gold, and VizionWare. To see a continuously updated list of participating manufacturers, or to get more details on this program, see online at: www.dplrating.org or call 386/615-2324.
